PROFESSIONAL SUMMARY

I am a dedicated and versatile IT professional with hands-on experience in technical support, systems troubleshooting, networking, CCTV installation and maintenance, user training, and digital solution development. I also engage in independent IT consultancy and technical advisory work, providing strategic guidance to organisations navigating digital adoption and infrastructure development. I am known for my professionalism, adaptability, and commitment to delivering reliable, user-centred technology solutions.

TECHNICAL & BUSINESS SKILLS

Technical Skills	Business & Soft Skills

PROFESSIONAL EXPERIENCE

Deputy Director IT / Instructor / Supervisor

Bouwen Legacy Limited | Salaama, Kulekaana, Kampala, Uganda
2025 – Present | Monday to Friday

I provide IT leadership, technical oversight, and workflow supervision across daily operations. I direct all IT-related activities, support the installation and maintenance of computer systems and infrastructure, and guide staff and learners in the use of digital tools and software. I also contribute to process improvements and the adoption of efficient, technology-driven workflows that strengthen overall service delivery.

Technical Advisor / IT Consultant (Part-Time)

Divine Guardian Foundation | Kirudu, Kampala, Uganda
2025 – Present | Advisory Engagement

Following my full-time role at the Foundation, I continue to serve in an advisory and consultancy capacity. I provide strategic guidance on technology planning, infrastructure decisions, and digital systems management, drawing on my direct knowledge of the organisation's operations. I offer expert input on IT procurement, system upgrades, and tool adoption without assuming day-to-day operational responsibility.

Deputy Director IT

Divine Guardian Foundation | Kirudu, Kampala, Uganda
2024 – 2025 | Monday to Friday

I supported the Foundation's IT operations and provided routine user assistance, ensuring staff had reliable access to functional computing resources. I maintained computer systems, coordinated timely technical support across departments, and contributed to internal technical planning aimed at improving organisational processes and service delivery.

IT Intern Instructor / Volunteer Technician

MSKitech Technological Solutions | Nsambya, Kirombe Estate Road, Kampala, Uganda
2024 – 2025

I assisted with the installation, maintenance, and troubleshooting of computer systems and software applications. In my instructional role, I supported learners with system setup, software usage, and core IT practices, helping to communicate technical concepts clearly to non-technical audiences while maintaining high standards in practical repair and maintenance work.

Cashier (Part-Time)

Meza and Salt Restaurant | Kampala, Uganda
2023 – 2024

I managed cash handling and daily transaction processing in a fast-paced environment, strengthening my accountability, customer service skills, and operational discipline.

EDUCATION

Bachelor of Information Technology

Kampala International University | Kampala, Uganda
2025 – To Date

I am currently pursuing a Bachelor of Information Technology, deepening my knowledge in software development, systems design, networking, and IT project management.

Diploma in Information Technology

Kampala International University | Kampala, Uganda
2023 – 2025

I completed a Diploma in Information Technology covering computer hardware, software support, networking fundamentals, and systems administration — forming the foundation of my professional practice.

SELECTED PROJECTS

Desktop Application Development Concepts

I worked on desktop-oriented software ideas and implementation support, including utility tools, media-related applications, and business-focused solution concepts. This demonstrates my practical understanding of software flow, user needs, and deployment considerations.

System Documentation and Technical Planning

I prepared and refined documentation for management systems, software tools, and IT solutions, covering requirements, modules, workflows, and implementation direction — combining technical knowledge with clear professional communication.

Software Troubleshooting and Deployment Support

I handled package installation issues, dependency conflicts, build errors, and software setup workflows in Python-based environments, reflecting hands-on problem-solving and persistence in real-world support scenarios.

Branding, Portfolio, and Digital Presentation Support

I contributed to logos, presentation structuring, product catalogue concepts, and professional digital identity support — pairing technical work with strong business-facing presentation skills.
